To Whom It May Concern,

I ran for Clerk of Court in Bossier Parish, Louisiana. I faxed my sheet in to get my login information in a timely manner. I was not given the password and information for Leaders until September 25, 2016. I attempted to input and submitted the wrong form. I had additionally done another wrong form and not submitted that form. Without being able to call someone since it was the weekend I did what I could. When I realized that my report was not online I called and your IT department had to transfer the data and which they did. I lost some information and had to input that information which I did.

My treasure has battled breast cancer and I had pneumonia. I had a campaign manager that took the money and ran. I have tried to stay on top of everything and have done so since then. If you will check I have filed every report after this in a timely manner.

I am asking for a waiver for the full amount since I was given the password on Friday afternoon and had to appear at an engagement that night but I did submit some of it then. I then got help the next week in addition to being sick myself.

I know my reports have been crazy but working with someone you can't contact has been a huge obstacle. I hope you will take her cancer and my illness into consideration when making your decision. I am even willing to get documentation about my illness if needed. In addition I would like for you to review your notes and see that I have made attempts to contact people as I needed.

Monica Hudson

Former Clerk of Court Candidate - Bossier Parish
